

Fine

Polishing paste 3

FINE is an exceptional finishing paste designed to eliminate polishing marks, holograms and tarnishing, making it ideal for application on fresh paintwork. For optimal results on larger areas, a machine polisher is recommended, while smaller patches can be efficiently finished manually. Silicone-free, **FINE** ensures a pristine finish without any unwanted residue.

Conveniently available in 1-Litre tins, **FINE** offers a practical solution for achieving a flawless finish and restoring the luster of surfaces with ease.
