1K structural paint

CP 582 Bumper is a one-component structural paint specifically formulated for the repair and refinishing of plastic components, including bumpers, mirror caps, and side moldings. With a remarkable versatility, the paint generally does not require the use of adhesion promoters or elastisicers on most plastics. Easy to use and resistant to scratches, Bumper ensures a reliable and efficient application.

Conveniently available in 1-Litre tins, CP 582 Bumper offers a practical solution for achieving a durable and aesthetically pleasing finish on various plastic parts.
